

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) Climaproof cosmetic complex, which comprises
0.1 to 90 % by weight of a gelled oil composition consisting of an oil component and a polymer component, which polymer component is selected from the group consisting of tri-block copolymers, star polymers, radial polymers, multi-block polymers of polystyrene, polyethylene, polyvinyl chloride, polyisoprene, polybutadiene, ethylene/butadiene copolymers, ethylene/propylene copolymers, ethylene/butylene copolymers, ethylene-propylene/ diene copolymers, styrene-ethylene/propylene copolymers, styrene-ethylene/butadiene copolymers, styrene-isoprene copolymers, styrene-butadiene copolymers, styrene-ethylene/propylene-styrene copolymers, styrene-ethylene/butadiene-styrene copolymers, styrene-isoprene-styrene copolymers, styrene-butadiene-styrene copolymers, and mixtures thereof;
0.1 to 80 % by weight of a topic water-repellent cross-linked polyester having a molecular weight of 600 to 8000 and consisting of polyvalent alcohols and dicarbonic acids;
0.01 to 20 % by weight of a water-absorbing powder having a particle size of 1 to 100 μm , which powder is selected from the group consisting of natural plant powders rich in cellulose, maltodextrine, starch, starch/polyacrylates copolymers, synthetic polymers made from acrylic monomers and mixtures thereof;
0.01 to 20 % by weight of a thickening agent; and
0.1 to 50 % by weight of organic solvents, carrier substances, or mixtures thereof;
~~with the provision that the complex does not comprises any emulsifying agents.~~
2. (Original) Climaproof complex according to claim 1, wherein the range for the gelled oil composition is 20 to 70 % by weight.
3. (Original) Climaproof complex according to claim 1, wherein the polymer share in the oil composition is in the range of 1:5 to 1:50 polymer component:oil component.

4. (Currently Amended) Climaproof complex according to claim 1, wherein the oil component is selected from the group ~~sensiting~~ consisting of hydrocarbons, fatty alcohols, natural and synthetic oils, esters, ethers, and mixtures thereof.
5. (Currently Amended) Climaproof complex according to claim 1, wherein the polymer is selected from the group consisting of di-block copolymers, tri-block copolymers and mixtures thereof.
6. (Original) Climaproof complex according to claim 1, wherein wherein the range for the water-repellent substance is 5 to 30 % by weight.
7. (Original) Climaproof complex according to claim 1, wherein the complex contains 0.01 to 50 % by weight cross-linked silicone polymers.
8. (Original) Cosmetic composition comprising 5 to 80 % by weight, related to the total weight of the cosmetic composition, of a climaproof complex according to claim 1; and the remaining to 100 % by weight further cosmetic acceptable substances.
9. (Original) Cosmetic composition according to claim 8 comprising 10 to 40 % by weight of the climaproof complex.
10. (Currently Amended) Cosmetic composition according to claim 8 which ~~wherein it is~~ a composition for skin protection against weather-related environmental damage.
11. (Currently Amended) Cosmetic composition according to claim 8 which ~~wherein it is~~ a composition of a decorative cosmetic selected from the group consisting of foundations, lotions, lipsticks, eye shadows, lip glosses, make-up's and rouges.
12. (New) Cosmetic composition according to claims 1 which contains eventually no emulsifying agent.
